Skagway, Alaska

Skagway was the gateway to the gold fields for the thousands who flocked to Alaska and the Yukon with the hope of striking it rich. Skagway may have boasted the shortest route to the Klondike, but it wasn't the easiest.

Over 100 years ago, the White Pass route through the Coast Mountains and the shorter but steeper Chilkoot Trail were used by countless stampedeers. Many a would-be miner perished on the treacherous Chilkoot Trail.

The gold rush was a boon and by 1898, Skagway was Alaska's largest town with a population of about 20,000. Hotels, saloons, dance halls and gambling houses prospered. But when the gold yield dwindled in 1900, so did the population as miners quickly shifted to new finds in Nome.

Today, Skagway has less than 1,000 residents. It still retains the flavor of the gold rush era.
